

PROJECT NEWSLETTER

Worshipping God | Making New Disciples | Transforming Communities

Project Objective

To make the Church, its buildings and grounds sustainable for future generations and to encourage a more community focus to its preservation and use.

Project Team:

Jeff Robinson: Katie Hobley:
Nick Blamire-Brown: Nick Miles:
Simon Pearson: Chris Twine

History

The project was started in 2019 but progress stalled due to covid. However following a bequest from a faithful church member the project team reformed in 2022.

The team has grown over time but we are always looking for fresh input and new ideas.

If you are interested in getting involved, please contact Nick Miles (nick.miles@sky.com)

Holy Trinity - Hartshill

What do you think of our community?

We have a project to make the Church Building more sustainable for future generations. It will remain primarily a place of worship for the community of Hartshill who wish to have their Christenings, Weddings and the Funerals of loved ones at the church. But we also hope to make the building more available for community use. We intend to use part of the church for a Heritage centre.

To do this we need to be confident we are meeting our communities needs.

To do that we need your help. There is below a QR code and website address for a questionnaire. Can you please have a go at filling it in online? It should only take a few minutes. Do not worry if you cannot answer all the questions.

If you cannot fill one in online just call in to the Community Library or Community Centre where someone can help you to complete a paper version.

Men and Women in Sheds

Recognising that isolation can affect people of all ages, this national group offers a welcoming space where individuals can share and develop woodworking, construction, and repair skills while connecting with others who share similar interests. Nuneaton has a Men and Women Shed group but are oversubscribed. Their committee are looking to establish a new facility in Hartshill - one that places greater emphasis on practical skills. Planning permission has been granted, and a community event is being planned. For more details go to the Facebook page -

Churchyard Biodiversity Habitat and Heritage project.

Holy Trinity is one of 10 churches in the Coventry and Warwickshire area involved in a special project to see how our churchyard can be developed to enhance wildlife habitats and provide valuable areas for the community to use. A number of studies are taking place, and some community activities are planned. Look out on the Hartshill Community and Church Facebook pages.

We hope this project will lead to a community gardening group. Anyone interested in joining this group when it is set up, please contact nick.miles@sky.com

Hartshill Heritage.

A Heritage Group has recently been set up - it already has 16 members, and we would welcome more people. There is no subscription. We have had a number of meetings and a special visit to the Roman exhibition at Mancetter Church. Hartshill has a lot of history, and we also want to capture people's memories and photos for future generations. We hope to create a resource which will be valuable to local schools and residents. Anyone interested in joining this group please contact nick.miles@sky.com

Other areas of focus include:

- Community Library (including family history club)
 - ✦ Run by Volunteers for all to use
- Community Centre
 - ✦ Hosting many activities from Toddler groups and Health clinics to Keep fit classes and much more!
- Community Cafe
 - ✦ Most Tuesdays from 11:30 - 1:30
